

RUPANTOR is a highly effective yet simple, easy and user friendly software, facilitates generation of loan sanction letters into any language swiftly and securely

Features of MSLS

Web Based Application

RUPANTOR is a web based application which makes maintaining and updating the system much simpler as usually it can all be done on the server.

Language and Output Format

Sanction letters can be printed in English and Bengali language. Printed or output format will be "DOC", "PDF" and "XLS".

Google Translator

Google translator API is used to do the necessary translation.

Custom Dictionary

Option is available to entry or bulk upload of English and correspondence Bengali words. Besides, the system is a self-learner to make the dictionary extensive. In future RUPANTOR will be mature enough to translate itself without the help of google translator.

Wide Range of Products

RUPANTOR can translate wide range of sanction letters across retail, SME and corporate.

Integration with Other Systems

Besides CBS, RUPANTOR can be integrated with any other software. Integration can be done through API or Web Service or DB link.

Printing Facility

Beside printing of sanction letter in regular pages, there is option to print in pre-formatted forms

User Management

RUPANTOR has an extensive user module. Beside, managing users' profiles there is option to manage access privilege. Users access only the data and functions they are permitted to. Security is enhanced by IP and MAC address based authentication.

Client Reference

RUPANTOR is successfully running at BRAC Bank Limited
